

Product Information.  
**Water Extraction Presses. LP Series**

"The Lavatec Water Extraction Press ensures that the dryers downstream need to evaporize smaller amounts of water."

Lavatec Laundry Technology GmbH

## Product Information.

# Water Extraction Presses. LP Series

LP 561	25 kg, max. 30 bar
LP 571	35 / 50 / 60 kg, max. 30 bar
LP 572	60 kg, max. 40 bar
LP 581	60 kg, max. 50 bar
LP 582	70 kg, max. 50 bar
LP 583	90 / 100 kg, max. 50 bar

### Advantages:

The sturdy hydraulic presses extract the water from the textiles in an optimal and even process. You can set up individual programmes for every single type of fabric and the software will adjust the pressure according to the loaded weight – dependent on type of laundry. You will achieve a reproduceable high-quality result every time – with short cycle times.

### Highlights:

- Optimal draining through innovative drainage plate
- Universal and durable membrane for any temperature range
- Direction of discharge variable, modifiable also at a later time
- Robust, safe basket guidance
- Variable transport of goods (optional)
