# Product Information.

## Industry Washer Extractor. LX 400

### Frontloader LX 400 series

LX 425	115 kg
LX 445	200 kg
LX 460	270 kg

### Advantages:

The robust and long living Washer Extractors with frontal loading are especially designed to wash large quantities in a highly effective and cost saving manner. The easy to programm control supervises all relevant parameters for any type of textiles. The dosing of water and detergents is done automatically according the actual weight loaded. So the machine will run the optimal consumption at any time.

### Highlights:

- Easy unloading by inclining
- Large drum door eases loading and unloading
- Variable drum speed
- Supplemental loading and unloading devices (optional)
- All types of heating available
- Many ecologic details for energy saving and for recycling
