

Product Information.

Dryer. TT-Series

"The evaporation performance of the Lavatec transfer cycle dryers are significantly higher compared to products from the competition."

Lavatec Laundry Technology GmbH

Product Information.

Dryer.TT-Series

Takt-Trockner in Dampf- oder Gas-Ausführung

TT 733	63 kg
TT 735	95 kg
TT 745	132 kg with a filling ratio of 1:20
TT 746 (stand-alone dryer)	132 kg with a filling ratio of 1:20
TT 748	188 kg
TT 756	210 kg
TT 757	270 kg

Advantages:

The extremely economic series of transfer tumblers. This line will provide more flexibility and less costs. Well proved mechanics is combined with State-of-the-Art technology. Loading and unloading is eased by cleverly conceived solutions – easy and safe.

Highlights:

- Variable heating (Gas, electricity, steam, hot oil or hot water)
- Easy unloading by automatic tilting
- Vertical sliding doors for optional loading and unloading
- Manual or automatic cleaning of lint screens
- Options for highly effective drum sealing either by felt or teflon bars
- Multi phase temperature control with infrared system
- Variable air circulation control
